5. Scope of bioprotectants for disease management in wheat (Dr. C. Uma Maheswari, Principal Scientist, ICAR- IARI, R. S. Wellington, Tamil Nadu)

Participants

The Zonal meet and the National Seminar aims to be the platform for transfer of technology between scientists, faculties, researchers, students, policy makers, representatives of private organizations, subject matter specialists, extension personnel, officials of Department of Agriculture, progressive farmers and other aspirants in the field of plant pathology.

Poster presentation

Participants can showcase their research findings as posters under the following themes.

Themes for poster presentation

- I. Tools for detection and diagnostics of plant pathogens, diversity and evolution of plant pathogens
- II. Host resistance, quarantine, host pathogen interaction, epidemiology and forecasting
- III. Bio agents and botanicals for plant disease management
- IV. Integrated disease management for sustainable agriculture, climate change and disease management
- V. Nanotechnology and modern tools for plant disease management
- VI. Mushrooms, post harvest disease management and extension plant pathology

Registration

All the participants should register using the prescribed registration form provided in this brochure to participate and present their research findings in the seminar. No abstract will be accepted without payment of the corresponding registration fee. Registration fee should be paid through online bank transfer, the account details of which are as follows.
